GovAssist Test Document

Purpose: This document is synthetic sample content for testing PDF upload, text extraction, retrieval, and question-answering in the GovAssist prototype.

Important notice: The scheme below is fictional. It is not a real government scheme, and its rules must never be used to determine a person's actual eligibility.

Sample Scheme: Community Learning Support Grant (FICTIONAL)

Scheme code: TEST-EDU-001
Department: Sample Department of Community Learning
Status: Fictional test entry only

1. Purpose

The fictional Community Learning Support Grant is designed only as an example for testing how GovAssist reads and explains scheme information. It represents a hypothetical education-support grant for learners enrolled in an approved training course.

2. Illustrative eligibility rules

For this fictional test only, an applicant may be considered eligible if all the following conditions are met:
• The applicant is at least 18 years old.
• The applicant is enrolled in a course lasting at least 3 months.
• The applicant lives in the fictional district of Example District.
These are invented rules for software testing, not real eligibility criteria.

3. Illustrative benefits

The fictional grant provides a one-time learning-material allowance of up to ■5,000. This amount is invented for testing and is not a real benefit or an offer of payment.

4. Illustrative documents

A fictional application might ask for:
• Proof of identity
• Proof of residence
• Course enrollment certificate
• A recent photograph
These are illustrative placeholders only. Do not submit real documents for this sample.

5. Illustrative application steps

1. Open the fictional Community Learning Support Grant portal.
2. Complete the sample application form.
3. Attach the illustrative documents.
4. Submit the form for a simulated review.
No actual portal exists, and no real application can be submitted.

6. Test questions

Use these questions to test the GovAssist assistant:
• What is the name of the sample scheme?
• What are the fictional eligibility conditions?
• What is the maximum illustrative benefit?
• Which documents are listed in the sample?
• How would someone apply in this fictional example?
• Is this a real government scheme?

End of synthetic test document. All names, rules, amounts, places, and procedures in the sample scheme are fictional and intended only for software testing.
